SUMMARY

Aspiring Software Engineer / Automation Test Engineer with hands-on experience in web technologies (HTML, CSS) and automation testing using Selenium WebDriver, TestNG, and Cucumber (BDD). Proficient in Java, Git, Jenkins (CI/CD), and Jira with a strong understanding of STLC and Agile methodologies. Seeking an entry-level role to build scalable web applications and reliable test automation solutions.

EDUCATION

Bachelor of Technology in Computer Science and Engineering	May 2024
Visvodaya Engineering College	Percentage: 75%
Diploma in Technical Engineering	November 2021
Prr polytechnic	Percentage: 68%
10th (SSC)	March-2017
Sri Chaitanya School	C.G.P.A: 8.5

TECHNICAL SKILLS

- **Programming Languages:** Java
- **Web Technologies:** HTML, CSS, GIT
- **Frameworks:** TestNG, Cucumber
- **Automation Testing:** Selenium
- **Databases:** MySQL

INTERSHIPS

Automation Testing Intern – Diginode Software Solutions Pvt Ltd

- Designed and executed automated test scripts using Selenium and TestNG, improving test coverage and reducing manual effort.
- Integrated CI/CD pipelines with Jenkins, enabling faster and more reliable test execution.
- Performed defect tracking and reporting using Jira, ensuring quick resolution and better product quality.
- Developed and maintained reusable automation frameworks, increasing testing efficiency.
- Collaborated with Agile teams to ensure continuous testing and timely delivery of features.

PROJECTS

Child Mortality Using Machine Learning

- Analysed child mortality data, achieving accuracy in predicting under-five mortality rates using machine learning algorithms.
- Developed predictive models, reducing error rates by 20% in forecasting mortality trends among children under five.
- Implemented data preprocessing techniques, enhancing model performance through effective handling of missing values and outliers.
- Utilized classification algorithms, improving predictive power by 25% in identifying high-risk factors for child mortality.
- Organized extensive model evaluation, achieving precision rate in identifying under-five mortality cases using validation datasets.

CERTIFICATIONS

- AWS Academy Graduate - AWS Academy Cloud Architecting
- AWS Academy Graduate - AWS Academy Cloud Foundations
- Certified in Software Testing – DigiNode Software Solution Pvt
