Bengaluru | Karnataka

PROFESSIONAL SUMMARY

Computer Science graduate with skills in Java, Python, Node.js, MySQL, HTML, CSS, and Git. Strong understanding of OOP, REST APIs, and database concepts. Experienced in developing academic projects and passionate about building scalable software solutions. Seeking an Associate System Engineer opportunity to apply technical and problem-solving skills.

EDUCATION

Computer Science and Engineering	May 2024
Visvodaya Engineering College	Percentage: 70%
Diploma in Technical Engineering	November 2021
PRR Polytechnic College	Percentage: 68%
Secondary School Certificate (SSC)	March 2017
Sri Chaitanya School	CGPA: 8.5/10

ACADEMIC PROJECTS

Student Management System (Java + MySQL)

Description: Developed a Student Management System to manage student records efficiently.

Responsibilities:

- Implemented CRUD operations for student information.
- Connected Java application with MySQL database.
- Added student search and record update functionality.
- Designed a menu-driven user interface using Java.

Child Mortality Prediction Using Machine Learning

Description: Developed a machine learning model to predict child mortality rates using healthcare and demographic datasets.

Responsibilities:

- Collected and preprocessed child mortality datasets by handling missing values and outliers.
- Performed exploratory data analysis to identify key factors affecting child mortality.
- Implemented machine learning algorithms to predict mortality trends and risk factors.
- Evaluated model performance using accuracy, precision, and recall metrics.
- Generated insights and visualizations to support data-driven healthcare decisions.

INTERNSHIP

Automation Testing Intern | DigiNode Software Solutions Pvt. Ltd.(Bengaluru)

Description: Completed an internship in Automation Testing, gaining hands-on experience in web application testing and test automation using industry-standard tools.

Responsibilities:

- Developed and executed automated test scripts using Selenium WebDriver and TestNG.
- Performed functional, regression, and smoke testing of web applications.
- Identified, reported, and tracked defects using Jira.
- Worked with Java to create and maintain reusable automation scripts.
- Collaborated with Agile teams to ensure software quality and timely delivery.
- Used Git for version control and Jenkins for continuous integration and test execution.

SKILLS

Programming Languages:Java, JavaScript, Node.js

Web Technologies: HTML5, CSS3

Database: MySQL

Tools & Platforms: Git, GitHub

Soft Skills: Problem Solving, Team Collaboration

ACHIEVEMENTS

- AWS Academy Graduate – Cloud Foundations
- AWS Academy Graduate – Cloud Architecting
- Certified in Python Programming
- Successfully developed academic projects using Java, Python, Node.js, and MySQL
- Participated in technical workshops and coding activities to enhance software development skills

Place: Bengaluru
